Helpful Hints Regarding the Licensing Process

The Idaho Board of Dentistry conducts a thorough evaluation of a number of items, including basic dental/dental hygiene credentials, national, regional and/or state examination results, malpractice history, and criminal or disciplinary history. This process takes time — anywhere from a few weeks to several months, depending mostly upon how quickly the applicant complies with what is requested of him/her and the nature of any problems requiring closer scrutiny. In spite of the fact that there is NO guarantee of licensure, some applicants make commitments to start work at a certain time and later find the commitment cannot be kept. Please remember that the Board will not accelerate one application at the expense of another, nor will it forgo any elements of its screening process. The following suggestions are offered to help those who apply for licensure, as well as those who recruit dental service personnel, to avoid problems which can be costly:

Before you submit your application:

- Read all general information and instructions in this application packet carefully.
- Give the Board enough time to do its job. For something as important as a dental or dental hygiene license, two months lead time is not unreasonable.
- Don’t make commitments on loans, practice start dates, home purchases, etc., until a license is granted and you have it in your possession.
- Application requirements are set to comply with the Idaho Dental Practice Act. Do not assume that an exception will be made or that a requirement will be waived for you.
- We recommend that applicants handle their own applications without delegating this task to someone else. The Board will not communicate with third parties regarding the status of an application.
- The Board will not verify receipt of third-party documents prior to receipt of an application.

After you submit your application:

- If you relocate during the time that your application is being processed, you must notify the Board of your new address. Do not rely on a forwarding order.
- Once your application has been received the Board will send you a letter of acknowledgement and an application validation code. This code can then be used to track the status of your application at www.idaho.gov/isbd/. Please allow us enough time to receive the application through the mail, enter your application into our database, and send you an acknowledgement letter and validation code before you contact the Board to inquire on its status. We recommend waiting for your validation code at least two weeks from date of mailing before contacting the Board to check the status of your application.
These instructions are designed to assist you in the application process for dental licensure in Idaho. Carefully read and follow all instructions. A checklist format has been provided to assist you in requesting documentation and to ensure you meet all application requirements. For specific licensing requirements, please refer to the Board of Dentistry's laws (Chapter 9, Title 54, Idaho Code) and administrative rules (IDAPA 19.01.01), which are available on the Board's web site at www.idaho.gov/isbd, or upon request.

Requirements for Dental Licensure (Rule 16).

The Idaho State Board of Dentistry will approve for licensure only graduates of dental schools accredited by the Commission on Dental Accreditation of the American Dental Association at the time of graduation.

Licensure by Examination

The Idaho Board of Dentistry accepts the following examinations: Western Regional Examining Board (WREB), Central Regional Dental Testing Service (CRDTS), and ADEX. Results of ADEX examinations are accepted if the exam was completed on or after January 1, 2006. Examination results will be accepted for up to five (5) years immediately preceding the date of application.

Licensure by Credentials

A general dentist who is actively licensed in another state, who has been in clinical practice at least five (5) years immediately preceding the date of application for a minimum of one thousand (1,000) hours in each year may be eligible for licensure by credentials, providing he/she meets all other qualifications for licensure as a dentist in Idaho. For licensure by credentials the Idaho Board of Dentistry accepts the results from any state or regional clinical examination. (If WREB, CRDTS, or ADEX were completed within the previous five (5) years, please see instructions for Licensure by Examination).

Applicants may be required to provide additional information or verification as requested by the Board of Dentistry regarding an applicant’s qualifications or fitness for licensure. In certain instances, information reported or obtained in connection with an application will require referral to the full members of the Board of Dentistry for review. Once an application is approved, the Board of Dentistry will notify you regarding the amount of the license fee. Fees are prorated to the date of the next renewal period and must be paid before issuance of the license. You may be sent a license before the check you sent us for your required fees clears your bank. If your check is returned to us unpaid, you will have failed to pay the required licensing fee and your license will not be valid, and you may not practice under that license. Also, a $50 service fee will be charged for checks which are returned by the bank [Idaho Code 54-920(5)]
