

IDAHO STATE BOARD OF DENTISTRY

CORRECTION NOTICE - JULY 2013 NEWSLETTER

On page 3 of the July 2013 Board of Dentistry Newsletter, the brand name CEREC was mistakenly referenced. The corrected statement reads:

CAD/CAM - The Board considered [April 2013] an inquiry regarding dental assistants using a CAD/CAM unit. While the Idaho Board of Dentistry's Administrative Rules do not specifically address CAD/CAM units, Administrative Rule 19.01.01.035.02.b. states "the placement or carving of permanent restorative materials in any manner" is a prohibited duty of a dental assistant. The Board of Dentistry determined that the use of a CAD/CAM unit to fabricate a permanent crown is a prohibited duty. If a specific dental assisting duty is not authorized under the direct supervision of a dentist it is assumed to be prohibited.
